RULE

RULE 12 - INTERFERENCE

Players must remember that their opponent is entitled to:

- a fair view of the ball
- freedom to hit the ball
- freedom to play the ball directly to the front wall

If one or more of the above is prevented, Rule 12 has been invoked. You, as referee, have to decide if a let or a stroke shall apply.

Did interference occur? This must be the first question you ask yourself. Remember that the extent of the interference is irrelevant. It may be a push in the back, or a touch of rackets.

If the answer to the above question is yes, you then have to examine two questions in concert:

- was a good/winning return possible?
- did the 'non-striker' make every effort to avoid causing interference?

You may now have to define what constitutes a 'good/winning return' and what constitutes 'every effort'. Not easy, is it!

Put simply, the solutions are as follows:

- No interference - no let
- Interference but the non-striker was making every good effort to get out of the way and only a good return was possible - let
- Interference and the non-striker was not making every effort to get out of the way and a good return was possible - stroke to striker
- If the non-striker was making every effort to get out of the way but a winning return was prevented - stroke to striker.
